About Me

I'm a highly motivated electronics engineering student with a strong background in mechatronics. I'm passionate about learning new technologies and applying my skills to solve real-world problems. I'm a proactive team player who thrives in collaborative environments and is always eager to take on new challenges.

Professional Experience

Database & Systems Administrator

Academia Yamuba AGS

05/2024 – Present

Standardized and optimized the school's student database, transforming chaotic data into reliable reporting systems.

- Automated key processes using Excel.
- Payroll processing.
- Inventory tracking.
- Primary administrator for SAT-compliant billing operations.

Team Leader IS

Sensata Technologies

01/2023 – 03/2024

Responsible for production-plan follow-up, required material supply, and automated Excel reporting.

- Production schedules.
- Summary reports.
- Real-time production tracking.

Languages

English: B1 | Writing 80% | Speaking 60% | Listening 90%

Skills

Softskills: Teamwork • Proactive Approach • Highly Motivated • Quicklearning • Tasks Management

Programming Skills & Digital Design: High-level languages: Python, C, C++ • Visual Basic for Excel • Low-level development (PIC, ATMEGA, ARM) • Digital design (VHDL) • Communication protocols (USART, SPI, I2C) • Full details in GitHub.

Education

Engineer in Electronics

Universidad Autónoma de Aguascalientes

08/2023 – Current

On course

- RISC-V processor core using VHDL.
- IEEE-754 32-bit floating-point standard calculator in VHDL.
- IEEE-754 32-bit floating-point calculator in ARM Assembly with UART.
- Power supply with short-circuit detector.
- TFT driver with bare metal for STM32.

Technician in Mechatronics

CBTis No. 168

08/2019 – 07/2022

During this period, I developed skills in diagnostics and maintenance for mechatronic equipment, plus software design with AutoCAD and CNC programming.
